The world has been in awe of these seven wonders and they have inspired us to create some stunning pieces of jewellery for the gorgeous bride. These creations bring together craftsmanship every bit as precise as that which went into making these wonders.

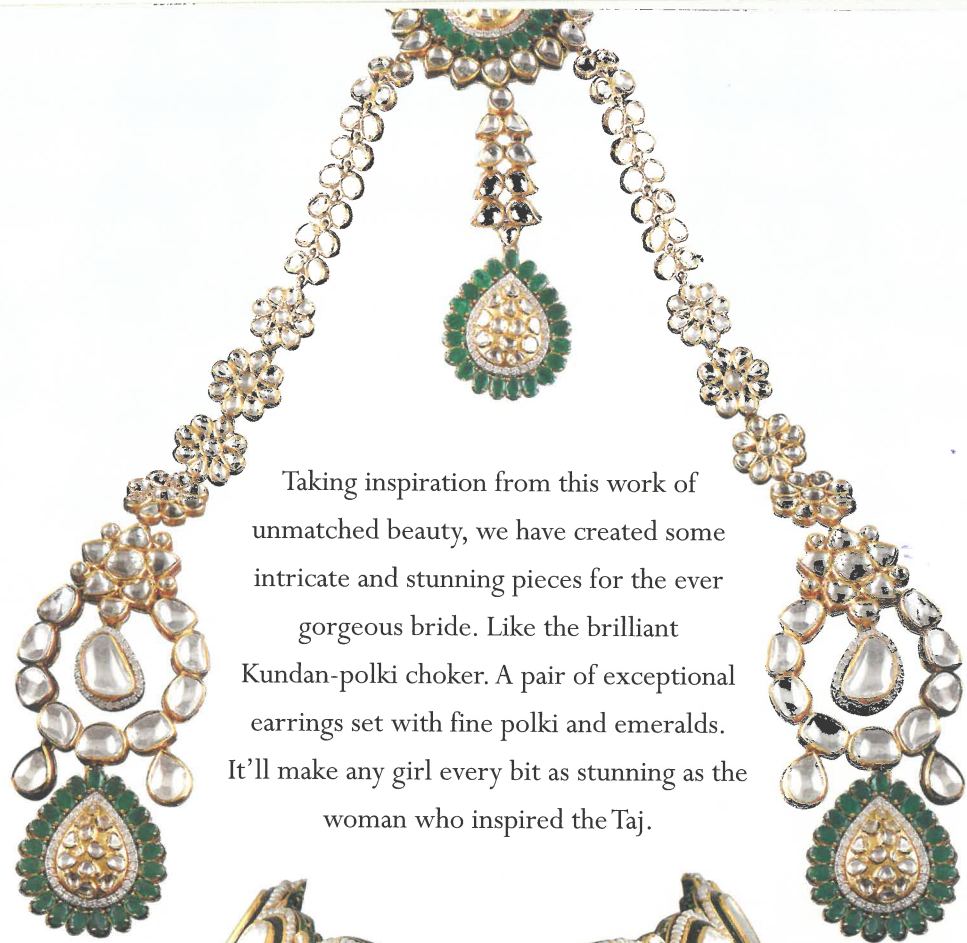

Because you deserve nothing short of excellence to feel special.

The Taj

Taj, the eternal symbol of love, has inspired many an artist, poets and dreamers. The pure white marble, the inlay work of precious and semi-precious stones, the intricate carvings, the almost perfect symmetry. They're a work to be marveled at.

Taking inspiration from this work of unmatched beauty, we have created some intricate and stunning pieces for the ever gorgeous bride. Like the brilliant Kundan-polki choker. A pair of exceptional earrings set with fine polki and emeralds. It'll make any girl every bit as stunning as the woman who inspired the Taj.

The Colosseum

The splendor of ancient Italian art comes alive at the Colosseum. This magnificent building stands as a tribute to Italian architecture. It is a proof of public celebration and of large swathes of people coming together, much like the grandiose of a splendid wedding.

We created some great jewellery with the same spirit of grandiosity in mind. Like the intricately designed gold necklace encrusted with semi-precious stones. Jhumkas set with diamonds, hand crafted gold bangles and karas.

The Great Wall of China

Its history is as awe-inspiring as it is legendary. This wonderful and ancient structure swirls spectacularly through the landscape as it carries on for miles.

A result of hard labour, it still holds strong as one of the most amazing wonders of the world.

This work of architectural marvel prompted our designers with everything that it represents, to create some stunning pieces. Necklaces with precious stones and diamonds, studded on frames of twisting and turning white gold. Gorgeous earrings finished with rose gold that would add a shine to any beautiful bride.

A photograph of the Christ the Redeemer statue in Rio de Janeiro, Brazil. The statue is white and stands against a blue sky with white clouds. Two large, ornate, multi-tiered earrings with red and white stripes and diamonds are superimposed on the right side of the image, appearing to float in the air. The title 'Christ the Redeemer' is written in a large, elegant, black cursive font across the middle of the image.

Christ the Redeemer

The elegance and grace of Christ the Redeemer in Rio is quite unparalleled. It towers over the city and is easily one of the most identifiable statue in the world. It gives a unique identity to the city of Rio de Janeiro and its people.

The pure white against the blue backdrop of the sky inspires awe and respect, at the same time its sanctity and sacredness is undeniable.

Intricate masterpieces of earrings and necklaces designed with impeccable craftsmanship and glowing in their unmatched beauty. You would be dazzled by the sheer brilliance and the level of artistry that these creations offer.
